Re: Students entering Grade Six in September
Tdap and Meningococcal Vaccine Requirements

Dear Parent/Guardian,

Every child born on or after 1-1-97 must receive one dose of Tdap given no earlier than the 10th Birthday.

Every child born on or after 1-1-97 must receive one dose of a meningococcal-containing vaccine, such as the medically preferred meningococcal conjugate vaccine. This applies to students when they turn 11 years of age.

All students entering Grade Six must provide documentation of receipt of these vaccines, as outlined above, from your medical provider. Proof of immunization must be submitted prior to the first day of school.

Please schedule your doctor's appointment in advance of the September deadline. Just a reminder, all students who participate in school-sponsored sports activities are required to have yearly physical exams. You may wish to consolidate this appointment to include the sports physical and required vaccinations. Sports physical forms are available in my office.

Your truly,

Mrs. Cheryl Bauman, RN
